## Rocking Wolf Ranch Highland Beef

Our cattle graze grassland with some bush and are outside year round. They are raised entirely on grass and hay, in the fall quite a few apples and other naturally available treats on their pasture. Our cattle are raised organic with lots of space to roam. Our outstanding beef is lean with an excellent taste; by having more protein and less cholesterol than common beef it is the healthiest beef. **519 270 5273 or [info@rocking-wolf-ranch.com](mailto:info@rocking-wolf-ranch.com)**
